Simply better solutions

tesa[®] **Consumer Catalogue**
International Basic Assortment

Valid from January 2013

tesa SE – tradition meets modernity

Inventiveness, boldness and a clear sense of the wishes of customers and consumers – these are the principal foundations that the tesa® brand has built upon in the course of its more than 75-year history. From the classic tesafilm® a brand family has developed with more than 7,000 innovative and customer-oriented products – for the industrial and commercial segments, and end consumers. As one of the leading international manufacturers of self-adhesive products and system solutions, and an independent public limited company in Europe, we are represented in over 100 countries and are the global market leader in numerous fields of application.

tesafilm® – the beginning of more than 75 years of brand history

The successful story of tesa began with the launch of tesa® adhesive tape in 1936 (from 1941 tesafilm®) and the tape dispenser that followed shortly after. Over the course of time, a brand family developed that now embraces over 300 products for end consumers. Intelligent tesa solutions in ten segments make life easier for consumers across Europe – in schools, offices, in the home and in the do-it-yourself segment. Many of these are now classics; not only tesafilm® with its dispenser, but also products such as tesa® masking tape, tesamoll®, tesapack® or tesa Powerstrips®.

tesa® – research achieves progress

The more than 75-year brand history of tesa is rooted in a wealth of experience in the development, manufacturing and marketing of self-adhesive tapes. Thanks to continuous research work, we now occupy a world-leading technological position in many fields. Around 220 scientists and developers in laboratories in Germany, the USA, China and Singapore are responsible for a never-ending stream of innovations with which we can fulfil the needs of our customers and consumers. What's more, our scientists also ensure the continuing improvement of the existing range of classic products. The most recent examples are tesa Powerstrips® Waterproof and the new Powerbond® Ultra Strong – with a retention strength of up to 100 kilograms per meter, this is the strongest tesa® mounting tape ever made. tesa Powerstrips® Waterproof were specially developed for use in damp environments. Thanks to the patented Powerstrips® technology, they can later be removed without a trace.

tesa® – the partner for business and end consumers

An important element of our successful brand and corporate history is the close cooperation and exchange with our trading partners and consumers. Insight into the individual needs of our customers is the foundation on which our ideas and our success are built. We provide support for the growth of our partners not only with a high-quality, innovative product portfolio at competitive prices, but also with effective marketing measures. Satisfied customers in numerous countries bear witness to our mutual success.

tesa® – quality as the basis for customer satisfaction

The interaction of optimum product benefits, highest quality and reliability is an intrinsic element of the tesa philosophy. Focusing on our customers and their needs enables us to seamlessly pursue the realisation of all product requirements. All tesa facilities around the globe are certified in accordance with internationally recognised ISO 9001 quality management systems. In addition to this, carefully selected raw materials and regular auditing of suppliers ensure that our quality is maintained at a consistently high level.

tesa® – belief in sustainability

At tesa, financial success, environmental protection and ethical behaviour are equally essential corporate objectives and an active continuation of our tradition. The development of environmentally compatible production technologies is also a part of this. Today, we already manufacture the majority of our products without the use of solvents. We are also continuing our commitment to sustainability at product level. We use the tesa ecoLogo® sub-brand for particularly eco-friendly solutions made from recycled materials and renewable resources – our ecoLogo® products. tesa® Stick, tesafilm® eco & clear, the tesa Easy Cut® hand dispenser, the refillable tesa® sticky and correction tape rollers, the new tesafilm mini tape dispenser ecoLogo® and the tesa mini correction tape roller ecoLogo® have been making homes and offices greener since the start of 2010.

Following the successful launch in the office supply segment, tesa is consistently expanding the product range. With tesa® Eco Premium masking tape, the double-sided adhesive tape tesa® Eco Fixation, tesa® extra Power Eco Repair cloth tape as well as tesapack® eco & strong, which is already established in the office supply segment, especially eco-friendly adhesive tape solutions are making their way into building supply and DIY stores – for masking, affixing and repairing. Thanks to solvent-free production and the use of primarily organically derived or recycled materials and packaging, these products do their part in protecting the environment.

Furthermore, our product portfolio embraces various products with which consumers can make their own contribution to environmental protection – for instance, saving energy by draughtproofing doors and windows with tesamoll®.

tesa® Masking Tape PREMIUM CLASSIC

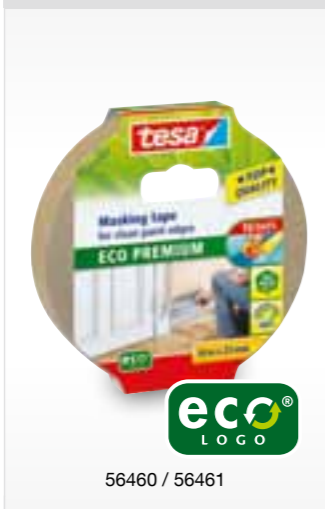

05281 / 05282 / 05284

tesa® PREMIUM CLASSIC Masking Tape for straight and clean paint edges and even gentle curves when painting indoors and outdoors.

- | Enables exact, clean edges on smooth and slightly rough surfaces without any paint dispersion
- | Residue-free removal for up to 8 days indoors
- | Suitable for all paints

tesa® Masking Tape ECO PREMIUM

56460 / 56461

For straight and clean paint edges when painting indoors and outdoors.

- | Residue-free removal for up to 10 days after use indoors
- | Suitable for all paints

Environmental aspects

- | 100% free from bleaching agents
- | 60% bio-based material
- | Solvent-free natural rubber adhesive

Packaging

- | 80% recycled cardboard

tesa® Masking Tape FLEXIBLE

56360 / 56362 / 56364

Especially flexible tesa® Masking Tape for irregular shapes and curves on smooth and rough surfaces.

- | Enables masking of clean paint edges and secure adhesion when stretched
- | Super-flexible, even suitable for narrow curves
- | Can be used on rough and smooth surfaces
- | Residue-free removal for up to 7 days indoors
- | Extra-strong adhesion
- | Suitable for all paints

tesa® Masking Tape UNIVERSAL

05286 / 05278 / 05287 / 05279 / 05288

Versatile general purpose tape for basic painting and masking applications.

- | Good adhesive strength on most surfaces
- | 4 days residue-free removal
- | Solvent free
- | 55% biobased material

tesa® Masking Tape Gloss Paint

56731

tesa® extra-fine masking tape for clean and extremely sharp edges on smooth surfaces.

- | Residue-free removal
- | Water-resistant
- | Exact positioning due to extra-thin translucent film
- | Usable for gloss paints

tesa® Masking for Corners

50491

tesa® Masking for Corners completes the large assortment of the tesa® Masking Tape tapes. They allow an easy and convenient covering of corners and edges (e.g. for windows and doors).

- | Perfect for corners and edges
- | Weatherproof and UV-resistant
- | Can be used on almost all surfaces
- | Residue-free removable within 6 weeks after indoor and outdoor usage
- | Suitable for all paints

tesa® Heavy Duty Masking Tape

55446

Strong, durable PVC tape for use when painting or plastering surfaces.

- | Suitable for indoor and outdoor use on even surfaces
- | Weather- and UV-resistant for up to 6 weeks outdoors
- | Hand-tearable

05255	Wall and ceiling joint Tape	contour cuff	25	50	6	36

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing on the tape. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

tesa Easy Cover® PREMIUM Film XL

56769 / 57117

tesa Easy Cover® PREMIUM Film L

59179 / 57116

tesa Easy Cover® PREMIUM Film M

59177 / 57115

tesa Easy Cover ecoLogo® PREMIUM Paper S

56767 / 57011

The convenient 2-in-1 combination of proven tesa® masking tape and drop cloth resp. paper for quick and easy large-area masking when painting and renovating. tesa Easy Cover® enables sharp and clean paint edges. Saves a lot of time!

- | Protects against paint splashes
- | Enables sharp and clean paint edges, even on slight curves
- | With practical dispenser and integrated cutter
- | Easy to cut to size
- | Easy Cover® film:
 - adapts ideally to protecting area
 - film structure slows paint-drops down
- | Easy Cover® paper:
 - smooth craft paper prevents paint penetration and protects against paint splashes and spots

tesa Easy Cover® UNIVERSAL Paper

58880 / 58881

tesa Easy Cover® UNIVERSAL Film

58882

The convenient 2-in-1 combination of masking tape and paper resp. foil for quick and easy large-area masking when painting and renovating.

- | Good adhesion for almost all surfaces
- | Paper: smooth craft paper prevents bleed through
- | Foil: paint resistant HDPE film
- | Suitable for all paints

tesa® Drop Cloth Universal

56651 / 55614

tesa® Drop Cloth Extra Strong

56652 / 55616 / 56653

For protecting large areas against paint, dirt and liquid spills for household, hobby and garden use.

- | Tear-resistant
- | Resistant to gloss solvents
- | Durable PE film
- | Practical perforations at 1m intervals

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing on the tape. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

The tesa range of double-sided mounting tapes has been designed with individual features for specific applications. Without noise, dust or risk of accidents objects can be fixed to walls in just a few simple steps. Common to all five tapes is easy handling, strong hold and a wide variety of uses. An aid in many situations that really no household should do without.

tesa Powerstrips® offer double-sided adhesive solutions with a secure hold on most surfaces which, due to the Powerstrips® technology, are simple and quick to remove without a trace. Objects can be fixed in position easily and safely without tools, screws or nails, and moved or replaced easily too: pulling the tab parallel to the surface stretches the strip to release the adhesive bond. The strip detaches without leaving residues or damaging surfaces.*

tesa Powerstrips®
LARGE / SMALL

58000 / 57550

The alternative to drill, hammer and nails.

- | Strong hold for objects on most surfaces*
- | Removable without trace thanks to the unique Powerstrips® technology
- | Powerstrips® LARGE: maximum hold of up to 2kg on smooth surfaces
- | Powerstrips® SMALL: maximum hold of up to 1kg on smooth surfaces
- | Suitable for the whole Powerstrips® LARGE or SMALL accessory range

tesa Powerstrips®
POSTER

58003 / 58213

The smart adhesive for fixing posters, charts or drawings and removing them without trace.

- | Secure hold of up to 200g*
- | Removable without trace thanks to the unique Powerstrips® technology
- | Due to special shape, ideal for light and sensitive materials and sensitive surfaces like wallpaper or varnished surfaces
- | Posters can be replaced or rearranged, leaving both surface and poster undamaged

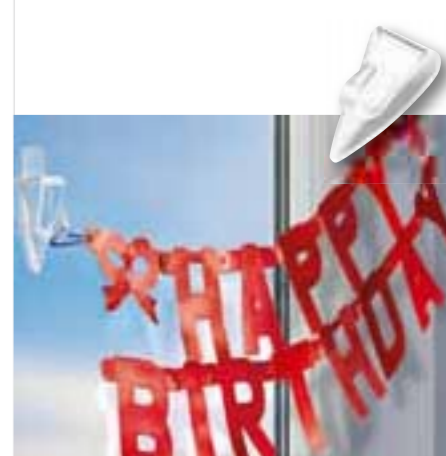

tesa Powerstrips®
DECO / DECO-Hooks

58800 / 58900

Transparent, UV-stable tesa Powerstrips® DECO fix light objects, like party or paper decorations, in the twinkling of an eye.

- | Secure hold for light decorations on glass and mirrors*
- | Removable without trace thanks to the unique Powerstrips® technology
- | Transparent and thus almost invisible
- | High UV-stability
- | DECO-Hooks reusable with new tesa Powerstrips® DECO

tesa® On & Off Cable Manager

55239 / 55236

The best and convenient way to bundle cables: tame the chaos of electrifying all electronic tools and helpers.

55236

- | For bundling and tidying cables of electrical devices, accessories and other objects
- | Practical shape
- | Can be attached to cable to guard against loss
- | Many applications, reusable
- | 1 000 times open and close

55239

- | For tidying bundles of cable and other objects
- | Can be cut to size
- | Ideal for household and office
- | Many applications, reusable
- | 1 000 times open and close

tesa® On & Off Extra Strong Strips

55228

The strong method of fixing heavy objects. The extra strong hook and loop strips can be opened and closed 1 000 times.

What makes tesa® On & Off Extra Strong Hook and Loop range so strong?

- | The extra-strong adhesive
- | The robust hook material
- | The special claw shape of the hooks

- | Practical strip form
- | For heavy objects like tools

tesa® On & Off Extra Strong Tape

55229

- | Can be cut to size
- | For tidying and organizing heavy objects like tools

tesa® On & Off Longroll Hook Coins/Loop Coins

55272/55273

Hook Coins/Loop Coins. Keep lightweight items tidy and secure together. Only usable in combination of both products. Fastenings for more than 10 000 times.

- | Firm, secure hold for light objects
- | 10 000 times open and close
- | Need hook coins or loop coins to enable the required engagement

tesa® On & Off Longroll Hook Tape/Loop Tape

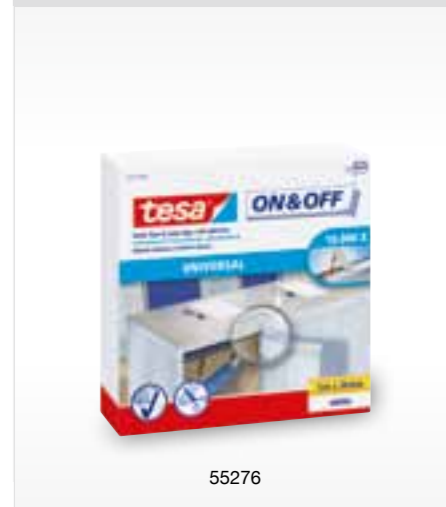

55274/55275

Hook Tape/Loop Tape. Lightweight items are kept tidy and secure. Only usable in combination of both products. Detach and reattach your objects more than 10 000 times.

- | Firm, secure hold for light objects
- | 10 000 times open and close
- | Needs loop tape or hook tape to enable the required engagement

tesa® On & Off Hook Tape & Loop Tape

55276

The versatile way to organize and fix objects. Detach and reattach your objects more than 10 000 times.

- | Firm, secure hold for light objects
- | 10 000 times open and close

tesa® extra Power Universal

56348 / 56388 / 56389 / 56490

Available colours:

tesa® extra Power Universal Duct tape is usable for household and hobby applications. For quick and easy solutions.

- | For handicrafts, repairing, fastening, bundling, strengthening, marking and much more
- | For daily uncomplicated solutions and quick & easy repairs
- | Very good adhesion to all types of surfaces
- | Tearable by hand
- | Solvent-free

tesa® extra Power Extreme Outdoor

56395

Available colours:

tesa® extra Power Extreme Outdoor is a transparent, cloth reinforced film tape with very high adhesive strength for long-term outdoor applications.

- | Extremely weather-resistant and waterproof, especially designed for outdoor applications
- | 1 year UV-resistant (UV treated PE film)
- | For handicrafts, repairing, fastening, bundling, strengthening, marking and much more
- | Temperature-resistant from -40°C to +95°C
- | Transparent
- | Hand-tearable
- | Solvent-free

tesa® extra Power Transparent

56349

tesa® extra Power Transparent tape for decorative and almost invisible applications.

- | Excellent adhesion to many types of surfaces
- | Strong, ageing-resistant adhesive
- | Weather- and waterproof
- | Very good resistance to solvents
- | Ideal for repairs on transparent plastic material and temporary repairs on cracked glass

tesa® Aluminium Tape

56223

Strong, durable tesa® Aluminium tape for repairs on any metallic surfaces such as car bodies or heating appliances.

- | Suitable for protecting, covering and repairing
- | May also be used for roof and gutter repairs
- | Temperature-resistant from -40°C to +140°C
- | Water-, oil- and grease-resistant
- | Age-resistant
- | High adhesive strength

tesa® StopWater Tape

56220

Reliable sealing of screw threads, valves, leaky faucets and more.

- | Non-adhesive white PTFE-tape
- | Air & watertight seal
- | Deformable and impermeable to water up to 6 bar

tesa® Self-bonding Tape

56242

Self-bonding Repairing, Sealing and Insulating Tape for temporary repairs.

- | Possible applications for Electric, Sanitary, Garden, Hobby and Household, e.g. provisionally repairs for tubes and pipes, sealing, cable insulation, etc.
- | Weather- and UV-resistant
- | Temperature-resistant from -20°C to +80°C
- | Reliably non-conducting in household applications
- | Can be applied on wet surfaces

tesa® Multi Tape

56244

Available colours:

Easy and economical solution for general repairs.

- | Elastic and suitable due to PVC backing
- | Easy to wrap and mould around uneven surfaces
- | For temporary repairing applications

tesa® Insulating Tape

56190 / 56192

Available colours (56190): Available colours (56192/56193):

The reliable and protective adhesive tape for insulating, wrapping and binding electrical wires and cables.

- | For insulating and binding electric cables
- | Protects cable coverings
- | Flame-retardant
- | Easy to wrap and mould around uneven surfaces
- | Safe electrical power protection up to 6000V
- | Certified according to IEC Norm 454-3-1

The tesamoll® assortment offers the chance to reduce heating costs quickly and easily even up to 40%. This helps to save valuable energy resources and is, of course, a great deal of money! All tesamoll® solutions like the self-adhesive and easy-to-attach sealing profiles for windows and doors, the durable and self-adhesive door-to-floor brushes, the Thermo Cover Window Film as well as the Heat Reflector Foil ensure high energy saving potentials.

| tesamoll® PREMIUM FLEXIBLE

| tesamoll® D-, P-, E-Profiles

| tesamoll® Universal Foam

| tesamoll® Door-to-floor Brushes / Double Roll

| tesamoll® Thermo Cover / Heat Reflector Foil

tesamoll® PREMIUM FLEXIBLE

05417

The self-adhesive tesamoll® PREMIUM FLEXIBLE high quality silicone profile for windows & doors adapts to any gap size easily.

- | Saves up to 40% of energy costs
- | Durability: 15 years
- | Extremely weather-, UV- and ozone-resistant
- | One size fits all gap sizes from 1 to 7mm
- | Wipe-clean
- | Easy to apply and to fit without screws or nails
- | Temperature-resistant from -50°C to +60°C

tesamoll® D-Profile

05393 / 05389

The self-adhesive easy-to-apply tesamoll® Profiles for windows and doors. The high quality rubber profiles withstand almost all weather conditions and are easy to fit.

- | Weather-, UV- and ozone-resistant
- | Self-adhesive, long-lasting rubber
- | Durability: 8 years
- | Wipe-clean
- | Easy to apply and to fit without screws or nails
- | Easy to remove
- | Temperature-resistant from -50°C to +60°C

- | Saves up to 40% of energy costs
- | Seals all gaps from 3 to 7mm

- | Saves up to 35% of energy costs
- | Seals all gaps from 2 to 5mm

- | Saves up to 20% of energy costs
- | Seals all gaps from 1 to 3.5mm

tesamoll® STANDARD I-Profile

05559

The long-lasting, self-adhesive general purpose tesamoll® foam draught excluder for windows and doors is easy to fit and adapt to different gap sizes.

- | Self-adhesive, long-lasting foam profile
- | Seals all gaps from 1 to 3.5mm
- | Durability: 4 years
- | Soft and flexible
- | Wipe-clean

tesamoll® Multi Protect

05560

Self-adhesive, long-life foam insulation for a wide range of household applications such as sound proofing of metal doors or as a protective buffer when operating household appliances. Provides a seal for insulation against noise, dust, moisture and cold draught.

- | Self-adhesive, long-lasting foam profile
- | Seals all gaps from 1 to 5mm
- | Durability: 4 years
- | Soft and flexible
- | Wipe-clean

tesamoll® UNIVERSAL Foam

05428 / 05412 / 55604

The versatile self-adhesive tesamoll® foam draught excluder for windows and doors is easy to fit. Easy to adapt to different gap sizes due to flexible foam. Very effective for noise reduction for indoor use.

- | Self-adhesive foam profile
- | Seals gaps from 1 to 5mm
- | Durability: 2 years
- | Soft and flexible

tesamoll® UNIVERSAL Door-to-floor Foam

05422

A cost-effective alternative to brush draught excluders, this self-adhesive foam strip will seal gaps of up to 20mm.

- | Stops draughts, dust, cold, warmth, noise and insects
- | For even floors
- | Quick and easy to apply
- | Long-lasting

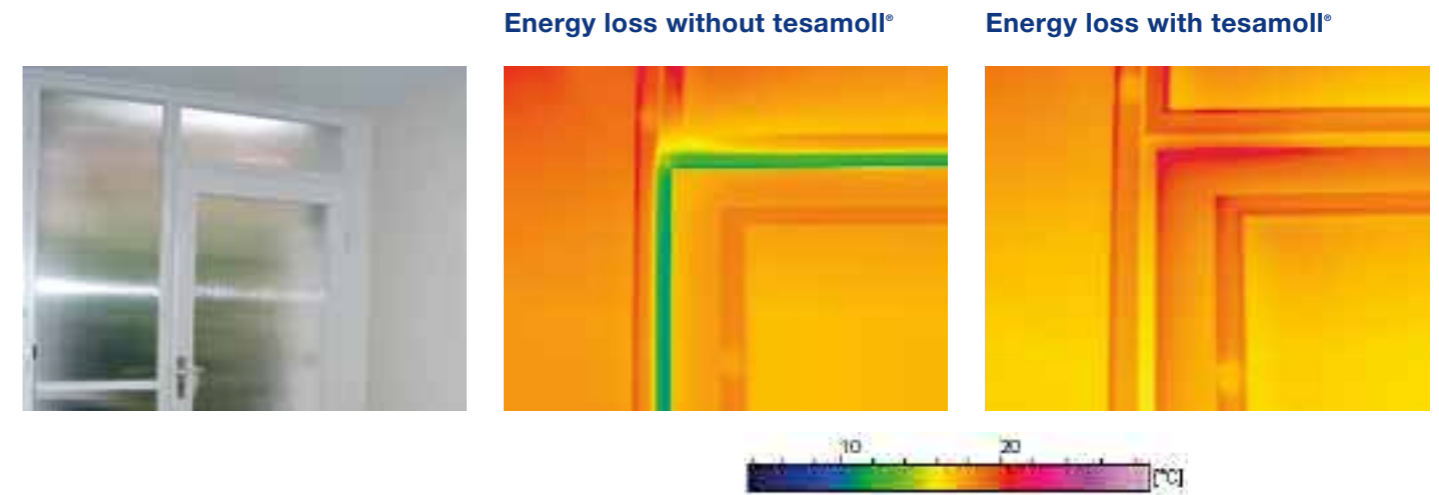

Application of tesamoll® profiles and foam:

Thermal imaging of an outer door without and with the usage of tesamoll®

The airtightness and the energy saving potential of the tesamoll draught excluders have been examined by two independent institutes with the following impressive results: End consumers might save up to 20% of the yearly energy costs by sealing their window or door gaps with tesamoll® profiles; in the case of large gaps even up to 40%

tesamoll® Door-to-floor Double Roll

05418

tesamoll® double roll stops cold, draughts and dust. Can be easily pushed under the door.

- Suitable for smooth flooring surfaces like parquet, wooden or tile floors
- For gaps of up to 22mm
- No adhesive

tesamoll® Thermo Cover

05430 / 05432

Insulating film for old or single pane windows to save energy.

- Transparent insulating film for windows
- Forms an insulating cushion of air and offers insulation similar to an additional pane of glass
- Stops cold, saves energy, greatly reduces window condensation
- Simple to mount using the double-sided tape included
- Film is smoothed out using a hair dryer and then stretched taut

tesamoll® Heat Reflector Foil

55157

Reduces loss of energy through the walls by reflecting the warmth energy. Saves heating costs.

- Aluminum-coated foam material
- Suitable for mounting behind heating radiators
- Fixing materials not included

55192 / 55197

Refills for ALU COMFORT

55134 / 55442 / 55140 / 55141

Adapter for Alu Door

55193

Professional and long-lasting solutions against insects. Complete kits for doors and windows have robust aluminium frames, can be employed in many different situations and are easy to use. After the season, frames can be removed and stored for the winter and easily mounted again the following summer. Can be trimmed to adequate size.

- | Easy assembly thanks to unique connection system
- | High-quality design
- | New clear view fabric for greatly improved transparency and optimised ventilation (compared with conventional fibreglass fabric)
- | tesa 5-year warranty
- | Windows:
 - insertable clamping springs for all popular window frames included
 - no drilling necessary
- | Doors:
 - incl. self-closing springs
 - extremely torsionally rigid thanks to metal connectors

Fixation without drilling holes – exclusively for the Alu Comfort applications of the tesa® Insect Stop range, there are innovative adapters available taking care of a safe fixation of the door screen.

- | Enables tesa Alu Comfort doors to be mounted using clamps, without drilling or screwing
- | Suitable for window frame thicknesses including insulation of 13 to 20mm
- | Push clamps into place – squeeze together – lock clamps – done!
- | Suitable for most door frames systems

**tesa® Insect Stop
Lamella Door COMFORT**

55845 / 55846

**tesa® Insect Stop
Lamella Door STANDARD**

55198

tesa's Lamella Doors are especially designed for balcony doors or French windows. They prevent insects from getting in, while at the same time allowing you unhindered access. The design allows the slatted fly screen to merge in with the surroundings.

- | Novel pulley technology ensures easy opening and closing of the lamella door
- | Can be opened and closed with one hand
- | Can be shortened individually
- | Removable without leaving residues thanks to tesa Powerstrips®
- | Stable weights - with noise reduction
- | Rail in modern grey

- | Four overlapping lamella slats provide safe protection and unhindered access
- | Easy opening and closing of doors
- | Stable weights – with noise reduction
- | Easy and fast installation with adhesive Hook & Loop tapes
- | Easy removal without leaving residues

**tesa® Insect Stop
Lightwell-Cover**

50007

50008

Durable mesh protects for lightwell covering. Prevents filth caused by insects, frogs, mice, leaves and others. Can be removed whenever desired.

- Lightwell-cover Stainless steel:
- | Extremely durable stainless steel mesh
 - | Can be driven on, rodent-proof
 - | Quick mounting thanks to 12 stainless clips supplied

- Lightwell-cover Aluminium:
- | Aluminium-mesh, can be walked on
 - | Extremely weatherproof
 - | Quick mounting thanks to 14 stainless clips supplied
 - | Long-lasting and durable

**tesa® Insect Stop Hook & Loop
COMFORT Mosquito Net with Ceiling Hook**

55836

tesa® Insect Stop Mosquito Net offers decorative protection from insects at home or when travelling.

- | Easy and fast installation thanks to tesa Powerstrips® technology ceiling hook
- | Easy, residue-free removal
- | For single or double beds
- | Suitable for up to 2.5m high ceilings
- | Washable up to 30°C
- | Practical nylon bag for travelling

tesa® Insect Stop Hook & Loop COMFORT for French Windows

55918

tesa® Insect Stop COMFORT offers reliable protection against insects with doors and windows open.

- | Easy installation thanks to Easy-on system
- | Removable without trace via Easy-off system: Hook and Loop tape is removable without leaving residues
- | Hook & Loop tape with strong grip and pressing device included
- | UV-resistant
- | Washable up to 30°C
- | Reusable net

tesa® INSECT STOP COMFORT for Dormer windows

55339 / 55881

tesa® Insect Stop COMFORT for dormer windows leaves troublesome insects outside and allows fresh air ventilation.

- | Flexible installation system and elastic rubber band for opening and closing dormer windows
- | Easy fitting on sloping surfaces thanks to tesa Powerstrips® technology
- | Removable without leaving residue
- | Washable up to 30°C
- | Reusable net

tesa® Insect Stop COMFORT for Sash & Outward-opening windows

55187 / 55188

This tesa® Insect Stop Mosquito net is specially designed for sash & outward-opening windows.

- | Problem-free opening and closing of windows
- | Product will be mounted inside
- | Washable up to 30°C
- | Reusable net

tesa® Hook & Loop COMFORT replacement roll

55347 / 55387

With tesa's hook and loop replacement roll, you can replace fly screens without leaving traces.

- | Self-adhesive premium hook and loop tape
- | The unique tesa® COMFORT hook and loop tape can be removed from most surfaces (aluminium, PVC and firm wood surfaces) easily without leaving residues
- | The entangled hook design provides strong grip of the mesh

Application of Hook and Loop system:

All tesa DIY and Stationery products that bear the tesa ecoLogo® label consist primarily of recycled or biologically based raw materials, are solvent-free, and are packaged in materials with as much renewable or recycled content as possible. It is a logical step for the company: In introducing the ecoLogo®, tesa is taking the next step in its longstanding commitment to the environment, putting that philosophy into practice at the product level as well. All tesa ecoLogo® products meet the same high quality criteria as the conventional tesa product range, while also fulfilling the requirements of the DIN EN ISO 14021 standards for ecological products.

| tesa ecoLogo® Stationery Assortment

| tesa ecoLogo® DIY Assortment

tesa developed a programme to supervise production, supply chain and products to pursue the company's environmental targets.

Environmentally friendlier procurement

tesa is member of the GLOBAL COMPACT, an initiative of the united nations = alignment of actions on social and environmental principles.

- | Under the tesa procurement charta suppliers are also required to observe these principles

Non-toxic ingredients

tesa is using raw materials that stand up to ecological assessment:

- | Environmentally neutral materials such as PET and PP, instead of PVC
- | Solvent-free adhesive compounds
- | Renewable raw materials
- | No softeners
- | No heavy metals

Don't throw away, re-use

tesa is constantly looking into new ways how to make our products more sustainable, for example:

- | Recyclable
- | Made from recycled materials
- | Made from bio-based materials
- | Packaging that can be composted

Resource-friendly production

One of the strategic pillars of the tesa business is the development and use of innovative solvent-free production processes.

Ecologically consistent and successful – with the tesa ecoLogo® brand:

Good for the environment:

- | Predominantly recycled or organically based raw materials
- | Solvent-free adhesive composition
- | Recycled or renewable packaging materials to the greatest extent possible

Good results:

- | Customary high tesa® quality
- | Compliance with DIN EN ISO norm 14021 for ecological product standards

Sustainable success with tesa ecoLogo® products:

The tesa ecoLogo makes it easier for customers to find their way around our range, especially when they are looking for environmentally friendly products. In addition, our environment icons explain the ecological advantages of each product, and percentages provide information on the quantity of environmentally friendly materials used.

- | Solvent-free adhesive with high UV-resistance
- | Excellent transparency for neat packaging
- | High sealing security
- | Even, low-noise unwinding
- | 57807/57831: suitable for use with all available tesapack® hand dispensers

tesapack® express

57804 / 05079 / 57810

The hand-tearable tesa® carton sealing tape for quick and easy application.

- 57804/57810:
- | Strong PP backing with easy-tear edges
 - | Solvent-free adhesive with high UV-resistance
 - | Convenient and fast sealing without utilities
 - | Crystal Clear: excellent transparency for neat packaging
 - | Even, low-noise unwinding

- 05079:
- | Very strong PVC backing with easy-tear edges
 - | Natural rubber adhesive ensures excellent adhesion
 - | Convenient and fast sealing without utilities
 - | High sealing security
 - | Even, low-noise unwinding

tesapack® eco & strong

58153 / 58154 / 58155 / 58156

The sturdy and environment-friendly tesa® carton sealing tape for secure packaging. 100% quality, 100% recycled plastic.

- | Strong PP backing made from 100% recycled plastic
- | Core made from 100% recycled cardboard
- | Label made from paper
- | Solvent-free adhesive with high UV-resistance
- | High sealing security
- | Even, low noise unwinding
- | Suitable for use with all available tesapack® hand dispensers

tesapack® paper ecoLogo®

57180 / 05054

The sturdy and environment-friendly tesa® carton sealing tape for same-material sealing of cartons, boxes and envelopes.

- | 60% bio-based packaging tape
- | Strong backing made from unbleached paper
- | Core made from 100% recycled cardboard
- | Contour cuff made from 80% recycled cardboard
- | Solvent-free adhesive
- | Good sealing security
- | Hand-tearable
- | Suitable for use with all available tesapack® hand dispensers

In the office or at home – if you need double-sided tapes, tesa® has the right solutions.

- | tesa® Handicraft Tape
- | tesa® Double-sided Fleece
- | tesa® Double-sided Tape
- | tesa® Graphics Crêpe

tesa® Handicraft Tape

56665

The universal use double-sided tape is ideal for a large number of applications, e.g. for permanently attaching objects and for handicrafts.

- | Double-sided adhesion
- | With release paper so it can be pressed down firmly
- | Very good adhesion
- | Ideal on rough and irregular surfaces
- | Easy to separate by hand
- | High resistance to ageing

tesa® Double-sided Fleece

05338

The classic double-sided fleece for all lightweight paper and decorative bonds.

- | Double-sided adhesion
- | With release paper so it can be pressed down firmly
- | Transparent
- | Good adhesion
- | Easy to separate by hand
- | Extra thin
- | In decorative container for protected storage
- | High resistance to ageing

tesa® Double-sided Tape

64621 / 64623

tesa® double-sided tape is very versatile. It reliably and discreetly holds together a huge number of different materials, such as paper and cardboard, with a double-sided bond.

- | Double-sided adhesion
- | With release paper so it can be pressed down firmly
- | Transparent
- | Good adhesion
- | High resistance to ageing

tesa® Graphics Crêpe

57415 / 57416

Especially designed for the non-slip fixing of technical drawings to drawing tables or for fixing plans to walls.

- | Extremely thin backing
- | Easy to remove without trace

tesa correction and adhesive rollers offer clean, crisp results for paperwork!
 The tesa rollers have been ergonomically designed so that precise and fast gluing and correcting becomes child's play.
 The different rollers and their applications can be told apart by their contrasting colours.
 All rollers are available in two versions: in handy disposable form or refillable with practical 2-click system". All rollers are made of 100% recycled plastic (housing) and therefore substantially contribute to tesa's commitment to the environment.

| tesa Roller ecoLogo® – refill system

tesa Roller Correction ecoLogo® refill

59976 / 59986 / 59841 / 59881

tesa Roller Correction ecoLogo® is practical and easy to use for everyone with something to correct.

- | For precise corrections
- | Good cover and adhesion
- | Can be written on immediately
- | Tear-resistant backing (PET)
- | Solvent-free
- | 100% recycled plastic (housing), refill 61% recycled plastic (without tape)
- | Tape widths: 4.2mm for printed text, 8.4mm for hand-written text
- | Packaging: 80% recycled cardboard, blister without PVC

tesa® roller refill system

- | One housing for three different applications
- | Two clicks are all that's needed to switch cassettes
- | Colour of cassette indicates application:
 - white = correction
 - red = permanent adhesion
 - yellow = non-permanent adhesion
- | Ergonomically designed for ease of use
- | Transparent housing shows amount of tape remaining
- | Practical wheel for tape tension adjustment
- | Wide base for stable use

tesa® All-Purpose Glue

57012 / 57013 / 57007

tesa® All-Purpose Glue is an indispensable aid for all handicrafts and bonding purposes in the household, office and workshop.

- | Bonds nearly all types of paper, photos, cloth, felt, cork, leather and wood to each other and to metal, glass, porcelain, ceramics, many types of plastic and hard foam
- | For clean surfaces and precise glue points
- | High light-, cold-, heat- and water-resistance
- | High age-resistance
- | Quick drying
- | Safety instructions see page 105

tesa® Multi-Purpose Glue

57019 / 57020 / 57022 / 57080 / 57081

Liquid tesa® Multi-Purpose Glue for universal use enables clean gluing of different types of material.

- | Sticks paper, photos, cloth, felt, cork, leather and wood
- | Solvent-free
- | Dries transparently
- | High light-, heat- and age-resistance
- | Can be washed out by hand

tesa® Handicraft Glue

57587

tesa® water-based Handicraft Glue is ideal for a variety of materials and especially designed to be used for handicrafts with children (from 3 years on).

- | Glues paper, cardboard, felt, cloth, leather, clay, wood and polystyrene
- | Solvent-free
- | Dries fast and transparently

tesa® Instant Glue

57040 / 57041

Robust and transparent – tesa's powerful Instant Glue for repairs. Usable with almost all types of material.

- | Ideal for fast repairs to small smooth surfaces
- | Quick, strong bond
- | Excellent long-term results, due to high cold and heat resistance
- | Safety instructions see page 105

tesa® Spray Glue Permanent

60020 / 60021

tesa® Spray Glue Permanent is a versatile glue for permanent bonding of materials such as paper, cardboard, felt, fabric, foil, leather and many different plastics.

- | For clean, economical, secure and fast bonding of large areas
- | Suitable for light and medium-weight materials with slightly uneven surfaces
- | Finely and evenly dispersion of glue
- | Fast drying
- | Resistant to damp and temperature from -20°C up to +60°C
- | Suitable for Styrofoam®
- | Free from silicone
- | Safety instructions see page 105

tesa® Spray Glue Extra Strong

60022

tesa® Spray Glue Extra Strong is an extra strong film-forming glue for permanent bonding of materials such as fabric, plastic, cardboard, foam, rubber, insulating materials, vinyl, leather and rubber to each other or to metal and wood.

- | Suitable for heavy weight materials with rough and uneven surfaces
- | Film forming spray
- | Spray direction can be set either horizontal or vertical
- | Adjustable spray quantity (H: high, M: medium, L: low)
- | Resistant to damp and temperature from -30°C up to +80°C (short term even 100°C)
- | Free from silicone
- | Safety instructions see page 105

tesa® Spray Glue Repositionable

60023

tesa® Spray Glue Repositionable is a glue for temporary bonding of light weight materials such as paper, cardboard and foil.

- | Transparent
- | Suitable especially for light weight materials with even surfaces
- | Easily removable if one-side application, permanent bonding if application on both sides
- | Finely and evenly dispersion of glue
- | Additional wider nozzle on cap for large area bonding
- | No waving of paper
- | No discolouring
- | No penetration of glue through paper
- | Free from silicone
- | Safety instructions see page 105

tesa® Adhesive Remover

60042

tesa® Adhesive Remover is designed for easy removal of glue residues from plastic parts, glass and metal surfaces.

- | Reliably removes residues of most adhesive tapes, glues and labels
- | Evaporates without leaving residues
- | Spray reaches even concealed and hard to reach places
- | Free from silicone
- | Safety instructions see page 105

	If swallowed, rinse mouth with water (only if the person is conscious).	x	x	x				

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing the materials to be glued. To find out if the adhesive is suitable for your specific application, we recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

Code	Description	ml	Packaging	Units per inner	Units per outer
60020	Spray Glue Permanent	300	tin	-	12
60021	Spray Glue Permanent	500	tin	-	12
60022	Spray Glue Extra Strong	500	tin	-	12
60023	Spray Glue Repositionable	500	tin	-	12
60042	Adhesive Remover	200	tin	-	12

The tesa® Photo range offers different ways to display photos – in traditional albums or in new creative applications, permanent or temporary. There are three ways to enchant the beholder:

| tesa® Photo Tape

| tesa® Photo Corners

| tesa® Photo Mounts

tesa® Photo Tape

56663 / 56661

Supplied in its own dispenser, tesa® transparent Photo Tape is suitable for long-term adhesion of large-format photos and decorative objects. For double-sided adhesion. Firm, secure hold for light objects.

- | Also suitable for uneven surfaces
- | Transparent
- | Strong hold
- | Permanent bond

tesa® Photo Corners

56613 / 56621

tesa's practical transparent Photo Corners can be used to stick photos in an album in the traditional way. The photos can be easily removed at any time.

- | Self-adhesive
- | Solvent-free
- | Practical dispenser

tesa® Photo Mounts

56617 / 56611

tesa's double-sided white Photo Mounts are for fixing photos of different formats securely.

- | Permanent adhesive
- | Practical pull-of tab
- | Acid-free
- | Practical dispenser

Code	Description	Packaging	Contents	Units per inner	Units per outer
56663	Tape (roll with dispenser)	hanging card	1 roll 7,5m : 12mm	10	80
56661	Tape (refill)	hanging folding box	1 roll 7,5m : 12mm	12	144
56613	Corners	hanging folding box	250	12	288
56621	Corners, big pack	hanging folding box	500	12	288
56617	Mounts	hanging folding box	250	12	288
56611	Mounts, big pack	hanging folding box	500	12	288

No more forgetting or endless searching. Convenient tesa® Notes are useful visible reminders of important information – both at home and in the office. Always at hand when needed!

| tesa® Office Notes

| tesa® Brilliant Notes

| tesa® Neon Notes

| tesa® Marker Notes

tesa® Office Notes

57653 / 57654 / 57655 / 57656 / 57657 / 56675

tesa® Office Notes for easy, individual labeling and marking.

- | Good adhesion
- | Easy to remove
- | Solvent-free
- | Good paper quality
- | Available in a variety of sizes
- | In a discreet shade of yellow for good legibility

tesa® Brilliant Notes

56005 / 56003 / 56007

tesa® Brilliant Notes catch one's eye with bright colours.

- | For marking and labeling
- | Good adhesion
- | Easy to remove
- | Solvent-free
- | Good paper quality
- | Available in a variety of sizes
- | In modern blue, yellow, pink and purple

tesa® Neon Notes

56004 / 56001 / 56684

tesa® Neon Notes in striking neon colours.

- | For marking and labeling
- | Good adhesion
- | Easy to remove
- | Solvent-free
- | Good paper quality
- | Available in a variety of sizes
- | In pink, yellow, green and orange

tesa® Marker Notes

56691 / 56694

tesa® Marker Notes for eye-catching marking.

- | For marking and labeling
- | Good adhesion
- | Easy to remove
- | tesa® Marker Notes transparent with different coloured tabs
- | tesa® Marker Notes neon in pink, green, orange and yellow
- | Usable in all popular organizers
